REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: allowance of claims 1-12 is indicated because the examiner agreed with applicant argument that the prior art of record does not show or fairly suggest a heating element having a mixture of a silicon and a molybdenum compound with an aluminum compound which includes components that together have a degree of purity corresponding to at least 98% to form the compound $\text{Mo}(\text{Si}_{1-x}\text{Al}_x)_2$ where x lies in the range of 0.4-0.6 as now amended.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: GB 899,464 is cited by the Applicant along with the reply filed on September 28, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
